

## CAMPUS CRUSADE FOR CHRIST

*Building Spiritual Movements Everywhere*

# The PCG Media Internship Introductory Letter

for Full Sail Real World Education Media Arts College

Dear Applicant,

We're delighted that you've shown an interest in using your talents and training in Christian ministry. Unbeknownst to you, we've been praying for you!

We offer a great opportunity for you to make a lasting impression on your world while gaining more in-depth experience in your chosen vocation.

Our media department is only one ministry branch among the 50+ divisions within our international organization. We report directly to the president of Campus Crusade for Christ, hence the name: *President's Communication Group*. We consider ourselves Toolmakers—making media tools to be used in Evangelism, Training, Documentation, and so much more. We have assembled a team that produces print media, video/DVD, websites, podcasts, as well as various radio programs. Specifically, we are looking for interns who have been trained in the audio and video production programs, including graphic arts and digital media. In the Bible, Jesus is quoted as saying, *"The harvest is so great, and the workers are so few"* (Matthew 9:37). It's really true. Each day we see people who are without peace and hope and purpose in life, and we don't have enough workers to reach them all. Just think, the opportunity is always there to introduce each person to the One who is Peace and Hope and Life, there just isn't enough people to carry the message. We need people like you to join us in reaching these hearts.

With the incredible Real World training you've received at Full Sail, we are confident that you can quickly have an eternal influence with us. We already have projects waiting for you. As an added feature, we also offer a wonderful Christian working environment and some spiritual development. It's a Win/Win situation.

After you take some time to absorb the information on this website, please prayerfully consider submitting your application for an internship with us. There is no application fee, and submitting your application does not obligate you to an internship if accepted. If you have any questions prior to faxing or emailing us your application, please feel free to contact the Recruiting Liaison listed below.

After you submit your application, your information is reviewed and a determination is made whether to go forward with a face-to-face interview. We promise a decision will be communicated to you in a timely manner. If accepted, we joyfully prepare a place for you and welcome you to our team!

We look forward to hearing from you!

## Your PCG Media Team
